## From REEL-TO-REEL To FLASH DRIVE Equipping Soul Winners with Tools for Evangelism

**S**ince the 1960s this ministry has donated tons of Gospel resources to soul winners who are trained to continue the ministry of Jesus in their own nations and beyond. The BIG 10 were first mass produced on reel-to-reel tape, to be played on battery operated tape players. Technology has come so far. We can now provide these sermons in MP3 format, easily downloaded by anyone in any country. **There are no limits.**

My father used to say, "A man can harvest a field with his bare hands. But his hands will become bloody and most of the grain will be lost before he can finish the task. You can give a man a sickle and he can harvest a field of grain in much less time. If you give him a combine, he can harvest the entire field in a single day." This was the practical evangelism strategy that birthed the many "Tools for Evangelism" that we produce and give to those willing to go into the vast harvest fields.

He taught and demonstrated the plan of God for humanity. Through His example and through His Spirit, He empowered His followers - men and women - to continue His ministry. They proclaimed the Gospel of the Kingdom, forgave sin, healed sick bodies and gave proof that Jesus had indeed raised from the dead.
